

NON-RESIDENTIAL WATER AND SEWER RATE CHART

2020 RATES

The rate structure for non-residential customers is based on water consumption in gallons. The minimum water rate includes a basic service charge of \$25.96 (plus \$1.82 sales tax) for the first 2,000 gallons. The charge is then computed at a rate of .0034 per gallon thereafter. The sewer cost is based on water consumption. The minimum sewer rate is \$19.25 for the first 2,000 gallons. The charge is then computed at a rate of .00998 per gallon of water.

Penalty of \$5.00 will be added on if paid after the 25th of the month.
